> **Approval comes first.** Bemes provides a repair estimate after evaluation and obtains your approval before completing billable work.

Repair or preventive maintenance?

Repair: Request evaluation of a Philips Respironics Trilogy Evo fault, alarm, power concern, or other operating problem.

Repair and scheduled maintenance can involve different work. Bemes will explain the recommended service before you approve billable work.

Philips Respironics Trilogy Evo Preventive Maintenance Planning

Maintenance timing depends on the applicable manufacturer instructions, device configuration, operating hours, and service history. Share the serial number, run hours, last service date, and any maintenance alerts with Bemes so the correct schedule and work can be confirmed.

HOW TO START YOUR REPAIR

BEMESONLINE

0

1. Complete the Repair Request Form below.
2. Identify your Philips Respironics Trilogy Evo and describe the problem or maintenance need. Include the serial number, operating hours, and service history when available.
3. Contact our service team for shipping instructions, label options, and confirmation of which accessories to include before sending your Philips Respironics Trilogy Evo.
4. After evaluation, we will send your repair estimate for approval before completing billable work.

90-day limited repair warranty

Bemes repairs carry a 90-day parts and labor warranty limited to replaced parts; electrical parts are covered by their manufacturer's warranty. Exclusions include misuse, abuse, negligence, power surges, acts of God, shipping damage, and items outside the invoiced repair scope.

Repair services are not returnable or refundable. Warranty seals must not be broken or tampered with.

Frequently Asked Questions

Philips Respironics Trilogy Evo Repair and Preventive Maintenance

Bemes can evaluate performance faults, alarms, battery or charging concerns, power issues, physical damage, and preventive maintenance needs. The exact repair scope is determined after the ventilator is inspected.

What is included in Philips Respironics Trilogy Evo repair service?

Service begins with inspection and troubleshooting. Recommended work may include cleaning, replacement of approved service parts, functional testing, calibration where applicable, and completed service documentation.

Will I receive an estimate before the repair begins?

Yes. Bemes provides a fast, free repair estimate after evaluating your Philips Respironics Trilogy Evo. We explain the recommended service and obtain approval before completing billable work.

How long does Philips Respironics Trilogy Evo repair take?

Turnaround depends on the problem, parts availability, testing requirements, and current workload. Submit the repair request below or call 866-490-1609 for current service timing.

Testing may include operational, alarm, delivered-pressure, run-in, power, and battery checks where applicable. The final test plan follows the device condition, approved work, and applicable service requirements.

What should I send with my Philips Respironics Trilogy Evo?

Contact Bemes for shipping instructions and confirmation of which accessories to include. Do not send masks, hoses, water chambers, sensors, or other patient-contact disposables unless specifically requested.

How often does the Philips Respironics Trilogy Evo need preventive maintenance?

Follow the applicable manufacturer instructions for your model and configuration. Bemes can review the operating hours, service history, and maintenance alerts to confirm the appropriate work. See the maintenance planning section above.
